DBMS Project Ideas for Students

School Management Systems

1. Make a system to track student grades and when they come to school.

2. Create a list to keep track of library books and who borrows them.

3. Make a menu system for the school lunch with meals for each day.

4. Build a sports team list with player info and game times.

5. Create a system to plan school events and who joins them.

6. Make a system to check school supplies and what's in stock.

7. Build a way for parents and teachers to talk and plan meetings.

8. Create a system to track homework for students and teachers.

9. Make a list of bus routes and where students get on and off.

10. Build a system for school clubs and who is a member.

11. Create a system for student health and what medicine they need.

12. Make a list to plan school fundraisers and keep track of money.

13. Build a system for teacher substitutes and when they are free.

14. Create a system to track student behavior and changes.

15. Make a list to plan school trips and get parent permissions.

16. Build a way to check out school tools and return them.

17. Create a system to track awards students get.

18. Make a list of student helpers and what they do.

19. Build a system for fixing things at school and tracking repairs.

20. Create a list for students to choose classes and check what they need.

21. Make a photo and yearbook system to keep pictures and stories.

22. Build a list of school news articles and who writes them.

23. Create a system for tracking student rides and emergency numbers.

24. Make a list of science fair projects and who does them.

25. Build a system to track what students need to graduate.

E-commerce and Shopping Systems

26. Create a small book store with book reviews.

27. Build a clothes shop with sizes and colors.

28. Make a toy store with age groups and safety tips.

29. Create a music shop with song samples and lists.

30. Build a pet store with tips to care for pets.

31. Make a sports shop with how-to guides.

32. Create a candy store with ingredient lists.

33. Build a plant shop with how to grow each plant.

34. Make a craft store with ideas and steps.

35. Create an electronics shop with help and warranties.

36. Build a bakery system for custom cake orders.

37. Make a flower store with care tips and events.

38. Create a hardware store with tool rentals.

39. Build a jewelry shop with custom sizes.

40. Make a furniture store with room setups.

41. Create a shoe shop with fitting tips.

42. Build a grocery store with recipes and food info.

43. Make a game store with reviews and levels.

44. Create an art store with tutorials and supplies.

45. Build a bike shop with repair help.

46. Make a camping gear shop with safety tips.

47. Create a beauty shop with skin tips.

48. Build a kitchen store with cooking tips.

49. Make a garden shop with planting times.

50. Create a school supply store with checklists.

Healthcare and Medical Systems

51. Build a system to plan doctor visits.

52. Create a medicine list with reminders.

53. Make a hospital room tracker for patients.

54. Build a vaccine record system with alerts.

55. Create a dentist office system with patient history.

56. Make a pharmacy list with medicine safety info.

57. Build a vet system with pet health records.

58. Create a gym system with workout plans.

59. Make a blood bank list with donor info.

60. Build a tool tracker for hospital machines.

61. Create a therapy session list with notes.

62. Make a hospital lunch list for special diets.

63. Build an ambulance tracker with map help.

64. Create a lab test system with results.

65. Make a care plan for people in nursing homes.

66. Build a rehab system to track therapy.

67. Create a system to check and order medical supplies.

68. Make an insurance system with details and claims.

69. Build a research study list with people and info.

70. Create an emergency room tracker for patients.

71. Make a home nurse visit planner.

72. Build a billing system for doctor payments.

73. Create an organ donation list with matching info.

74. Make a counseling tracker for therapy sessions.

75. Build a training tracker for medical workers.

Entertainment and Media Systems

76. Create a movie list with reviews and showtimes.

77. Build a music app with playlists and singers.

78. Make a game system with scores and prizes.

79. Create a book club list with reading plans.

80. Build a theater ticket system with seats and shows.

81. Make a photo studio list with pictures and bookings.

82. Create a radio station list with songs and times.

83. Build a dance class list with student names.

84. Make an art gallery system with art and events.

85. Create a comedy show planner with performers.

86. Build a karaoke list with songs and favorites.

87. Make a bowling system with scores and leagues.

88. Create an arcade list with games and winners.

89. Build an escape room planner with puzzles.

90. Make a mini golf score tracker.

91. Create a trampoline park list with activities.

92. Build a laser tag game list with team scores.

93. Make a paintball game list with equipment.

94. Create a go-kart race tracker.

95. Build a skating rink list with rentals.

96. Make a water park system with ride info.

97. Create an amusement park tracker with wait times.

98. Build a zoo list with animals and feeding times.

99. Make an aquarium list with sea life and displays.

100.   Create a space center show planner.

Sports and Recreation Systems

101.   Build a baseball team list with games and stats.

102.   Create a basketball team system with practice info.

103.   Make a soccer team list with games and scores.

104.   Build a pool list with race times.

105.   Create a tennis court booking list.

106.   Make a golf system with tee times.

107.   Build a volleyball league tracker.

108.   Create a track and field record list.

109.   Make a wrestling match tracker.

110.   Build a cheer routine planner.

111.   Create a cross country race list.

112.   Make a gymnastics skill tracker.

113.   Build a football playbook with scores.

114.   Create a hockey team list with positions.

115.   Make a badminton club score list.

116.   Build a ping pong tournament planner.

117.   Create a karate belt level tracker.

118.   Make a bike ride map planner.

119.   Build a running group training list.

120.   Create a fishing trip tracker.

121.   Make a hiking trail info list.

122. Build a camping checklist and spot list.

123. Create a rock climbing tracker.

124. Make a skiing trip planner.

125. Build a snowboard trail map.

Food and Restaurant Systems

126. Create a food order system with menu and price.

127. Build a recipe list with steps and food items.

128. Make a delivery app with driver info.

129. Create a bakery planner with specials.

130. Build a pizza shop list with toppings.

131. Make an ice cream list with flavors.

132. Create a coffee shop with drink choices.

133. Build a sandwich shop with food details.

134. Make a taco shop with spice levels.

135. Create a buffet planner with food times.

136. Build a food truck list with stops.

137. Make a party food planner.

138. Create a meal plan with shopping lists.

139. Build a market vendor list.

140. Make a cooking class planner.

141. Create a recipe blog with reviews.

142.   Build a health food tracker.

143.   Make a food review list.

144.   Create a safety check system for food.

145.   Build a school lunch plan.

146.   Make a food bank tracker.

147.   Create a grocery list with locations.

148.   Build a meal box planner.

149.   Make a staff work schedule.

150.   Create a food shelf life tracker.
