153. Create a bird feeder with spots for seeds and perches.
154. Build a shed to store lawn tools safely.
155. Make a deck extension to enjoy outside time.
156. Create fence panels to give your yard privacy.
157. Build a garden gate with pretty hinges and latch.

158. Make an outdoor kitchen island with a grill space.
159. Build a pergola with spots for climbing plants.
160. Create a fire pit with seats all around.
161. Make an outdoor shower with privacy walls.
162. Build a garden trellis for plants to climb on.
163. Create an outdoor bar with weatherproof finish.
164. Make a mailbox post with carved house numbers.
165. Build an outdoor bench with storage under the seat.
166. Craft a tree swing with strong ropes and safe design.
167. Create a garden arch for walking paths.
168. Build a storage box for pool toys and gear.
169. Make a wind screen to block wind on the patio.
170. Craft an outdoor dining set with a hole for an umbrella.
171. Build raised garden beds with drainage holes.
172. Create a privacy screen with a pretty lattice pattern.
173. Make a camping table that folds flat for easy carry.
174. Build an outdoor sink station with a soap holder.
175. Create a greenhouse frame with clear walls.

## **Kitchen Woodworking Projects**

176. Build a spice rack with small jars for your seasonings.
177. Make a cutting board with a groove to catch juice.
178. Create a utensil holder with divided sections.
179. Build a bread box with a lid that opens and vents.
180. Make a kitchen island with drawers and towel racks.

181. Create a pot rack for hanging cooking pans.
182. Build a recipe book stand with a tilting support.
183. Make a knife block with slots for different blades.
184. Create pantry shelves that can be moved up or down.
185. Build a dish drying rack with a tray underneath.
186. Make a rolling pin with a smooth wooden surface.
187. Create a kitchen cart on wheels for easy moving.
188. Build a paper towel holder you can use with one hand.
189. Make a fruit bowl with a carved design on the edge.
190. Create a kitchen stool with a soft seat.
191. Build an herb garden box for fresh kitchen herbs.
192. Make a mug tree to hold many coffee cups.
193. Create a cabinet organizer with pull-out drawers.
194. Build a trivet set to protect counters from heat.
195. Make a lazy susan for easy reach of condiments.
196. Create a kitchen scale platform with clear markings.
197. Build a wine glass rack that hangs glasses by their stems.
198. Make a kitchen timer holder that makes sounds louder.
199. Create a cookbook shelf with clips to hold pages.
200. Build a backsplash with space for pretty tiles.

## **Home Office Woodworking Projects**

201. Build a computer desk with a tray for the keyboard and storage.
202. Create a filing cabinet with rails for hanging folders.
203. Make a bookshelf with shelves you can adjust up or down.

- 204. Craft a desk organizer with spaces for office supplies.
- 205. Build an office chair with a back that supports your body.
- 206. Create a wall desk that folds down when you need it.
- 207. Make a printer stand with a spot to keep paper below.
- 208. Craft a bulletin board frame with a cork surface.
- 209. Build a storage cabinet with doors and shelves inside.
- 210. Create wall shelves to show awards and decorations.
- 211. Make a desk lamp base with a moveable arm.
- 212. Craft a cable holder to keep computer cords tidy.
- 213. Build a room divider to make a private workspace.
- 214. Create a wall calendar frame with a dry erase surface.
- 215. Make a pen and pencil holder with many sections.
- 216. Craft a desktop organizer with slots to sort mail.
- 217. Build a standing desk converter to help with posture.
- 218. Create floating wall shelves for office gear.
- 219. Make an inbox tray system to sort important papers.
- 220. Craft a desk pad with a leather insert and pen holder.
- 221. Build a tall office storage tower with many drawers.
- 222. Create wall hooks to hang bags and coats.
- 223. Make a document holder that you can tilt to see.
- 224. Craft a desk extension that clamps onto your desk.
- 225. Build a storage cabinet with a door that locks.

## **Bedroom Woodworking Projects**

- 226. Build a nightstand with a drawer and a lower shelf.

227. Create a headboard with built-in reading lights.
228. Make a dresser with many drawers and a mirror.
229. Craft a jewelry organizer with hooks and small boxes.
230. Build a bed frame with drawers underneath for storage.
231. Create an armoire with a rod for hanging and shelves.
232. Make a vanity table with a mirror and space for makeup.
233. Craft a bench with a soft cushion for the foot of the bed.
234. Build wall shelves to show bedroom decorations.
235. Create a clothes hamper with a removable fabric liner.
236. Make a reading chair with a soft, comfy seat.
237. Craft wall hooks to hang robes and clothes.
238. Build a storage ottoman with a hidden space inside.
239. Create a full-length mirror frame with carved edges.
240. Make a bedside caddy that hangs over the mattress edge.
241. Craft a room divider for a private dressing area.
242. Build a ceiling fan with blades that can change direction.
243. Create wall shelves with charging spots for devices.
244. Make a shoe rack that fits inside the closet.
245. Craft a jewelry box lined with soft fabric.
246. Build a desk area with storage and good lighting.
